Rust is an iron oxide, a usually reddish-brown oxide formed by the reaction of iron and oxygen in the catalytic presence of water or air moisture... oh, but there's so much more to rust. The unique, ever changing characteristics that remind us of the possibility of beauty in decay.

You can portray rust in your artwork: paintings, fiber, sculpture, photography etc. or you might decide to use rust within your chosen medium to express a feeling or mood about your subject matter.

RUST will be an invitational show and will include gallery members and non-members. We'd love to see what you can do with RUST.
